SPECIALTY SOFTWARE FOR THE ATARI PERSONAL COMPUTERS

The Creation Story From Genesis

USER MANUAL

ATARI TM Atari Inc.

INTRODUCTION

THE CREATION STORY is an abridged account of the Creation of the World as it is found in the Bible's first Book: Genesis.

A modified King James' text is used throughout.

The original manuscript for the Book of Genesis was written in Hebrew. The program displays several Hebrew words in large, high resolution, graphics. The phonetics with each word makes them easy to pronounce.

The music selection is from Franz Joseph Haydn's Oratorio: THE CREATION.

This program is designed to aid your understanding and increase your knowledge of the Seven Days of Creation as it is recorded in the Bible.
